

TWENTY-THIRD YEAR No. 10

GLEICHEN, ALBERTA, WEDNESDAY, MAY 29 1929

SUBSCRIPTION \$2.00 PER YEAR

GLEICHEN SPORTS
DAY PROVES
VERY SUCCESSFUL

Again Gleichen sports day has turned out to be a comparative success in spite of a variety of inclemency in the last two years. The sports day in Gleichen, Saturday, May 25th, has been the last two years the main sports day in Gleichen.

The baseball event, taking in the teams from Okotoks, Airdrie, and Cochrane, was finally given by Airdrie.

Queenstown defeated Airdrie 11-6, Arrowood defeated Queenstown 10-6 and Arrowood came into the main competition at Queenstown town in a 7-7 game.

The children's sports were immensely enjoyed and the following were the results:

Boys, 10 to 12, race, 6 and 7 years, T. Eggers 1st and Holey Sather 2nd each;

a pair stockings by H. A. Brown;

Girls race, 10 to 9, Mabel Brown; the girls who won the race, each received a pair of stockings;

Boys, 9 to 12, Wilmer Lester and Symon Heimbecker; each a knife;

Girls, 10 to 12, Alice Puckett and Clara Giesler; each a box of candy by Dr Farquharson and a pair of hose;

Boys, 10 to 12, Alex Puckett and Clinton; each a box of candy and a knife;

Girls, 10 to 15, Gertrude Owns, Rachel Biggs; chocolates, by L. S. Teo Roan and Phoenix Market;

Boys, 10 to 12, Fred Bowdrow and Peter Dowling; each a knife;

Girls 10 years and over, Gertrude Owns and Agnes Hart; each a sweater by J. A. Bowdrow; each a box of candy by T. P. Powell;

Boys 10 and over, No Race;

Girls open bicycle race, Helen Inglett and Alice Bowdrow; each a sweater in case; Mrs. R. Yates had a hooded hand comb by Gleichen Jewellery.

Open bicycle race, Pete Dowling and David Pidder; each a sweater by Gleichen Jewellery and a flashlight by Macmillan Hardware;

Girls open bicycle race, Helen Martin; each a hooded hand comb and Dorothy Brown-Mary Dunker; candies by W. R. Harrison, Stone Cafeteria, J. E. Jones and R. W. Brown;

Boys open three-legged race, Norman Schenck; Alice Puckett and Vernon Anglin-Alan McLean; tennis shoes by M. C. Evans; each a box of candy;

The dance that night was a grand success from every view point and the great crowd remained until the small hours.

WORLD HAPPENINGS BRIEFLY TOLD

Emile Charlotte de Bathe, better known as Lily Langtry, left \$277,225.

Canada is the only Dominion that recorded an increase in British imports during 1928.

Without exception, due to the delay, the post office has delivered to Clifford C. Gilbert of New Haven, Conn., a letter mailed October 15, 1928, in Hanoi.

After an illness of many months, Senator Robert Watson, 76, pioneer of the prairie, and one of the most prominent political circles, died at the home of his daughter, Mrs. J. Hilton McGregor, Brandon, Man.

Word of the death of Righter stepped in, the first train to enter what is now Vancouver, in May was received by D. C. Colleman, chairman of Canadian Pacific Railways, Mr. Righter had been 85 years old.

Harbor improvement bills introduced in the Senate by Senator John Abbott, \$100,000 for Montreal Harbor; \$10,000,000 for Vancouver Harbor; \$5,000,000 for Halifax Harbor; and \$2,000,000 each for the harbors of Three Rivers and Chicoutimi.

The West End conference is establishing a trade commission in Canada. Edward Davison, chairman of the West India conference, stated at Ottawa, Mr. Edward is investigating trade possibilities in Canada.

Among the entrance scholarships awarded at Upper Canada College, Toronto, are: Samuel Sonnenburg (\$1,000 a year for three years)—Robert Kay Gordon, Edmonton, Alta.; Number 3 (\$1,000 a year for three years), Edgar Stanhope, Edmonton.

Alberta Has Surplus

Closes Fiscal Year With More Money Left Than Ever Before

Alberta's fiscal year ended March 31, with more money left over in the provincial treasury in excess of expenditures than ever before in this century. The balance, \$1,817,471 being the exact amount, according to an announcement made by Provincial Treasurer Hon. W. H. Reid.

The total for the previous fiscal period, ended March 31, 1928, was \$279,763, covering 15 months, because of the change of the fiscal year to last year.

For more details

On the average over 300 earthquakes a year, or roughly one a day, are registered on the seismographs at the Dominion Observatory, Ottawa. These, however, do not always do involve any serious disturbance anywhere, and comparatively few originate in Canada.

There's always a trick in it. They sell you a car or a photograph for credit, and then demand cash for gas and dance records.

The last Bible in the world is missing—Hebrew Bible in the Vatican. It weighs 220 pounds.

Heart Trouble Hands and Feet Numb and Cold

Mrs. Wm. Fowles, Auburn, Ont., writes: "Several years ago I was troubled with my hands and feet so bad, at times my hands would become numb and cold. I took doctors' advice, but while it helped me a little or no good, I happened to see

advertisements of a small oiling cream at a drugstore, and continued for some time, and since then I have had no return of my trouble."

Fred Jackson, at all drugstores and dealers, or mailed direct on request. Price 25¢. The T. Milburn Co., Ltd., Toronto, Ont.

Will Search For Italia's Crew Norwegian Vessel Is Fully Equipped

An Italian expedition headed by Gianni Alberoni left Bergen aboard the Norwegian steamer "Susal," to search for the lost members of the crew of the Polish ship "Galeb," which crashed in the Arctic last summer.

The party of 18 men on the "Susal" which was formerly the Heiman, will seek from Svalbard to Franklin Land for the so-called Franklin party, who became stranded part way across the ice. They were carried away in the bag of the Italia after the crash. The men in Italia's gondola, under Umberto Noce, are still missing.

The "Susal" is fully equipped with sledges and traps, and the crew stayed at King's Bay to take on more dogs before starting its long cruise. It is provided for 18 months voyage.

Italy Has Ambitious Road Building Program

Fifty Thousand Miles To Construct
Motor Highways

Because Premier Benito Mussolini has ordered it, Italy soon is to embark on the most ambitious road building program in Europe. The European state has attempted—perhaps the largest since the famous roads built of ancient Roman times—every corner of the peninsula will be accessible to the motorist. In addition, the railroads and the great penetration of strata was thus drowned out by signals received from shaft and metallic structures.

Italian signals have been placed at intervals of 10 miles in the eastern part of the country, if not in the dictionary—but it is not in the dictionary—“Specie” is a forced and artificial style rapidly fading.

Wireless has been conducted experimentally for the transmission of underground radio penetration of the earth by the waves, and designing a set which will be powerful enough to receive the feeble signals after penetration.

Wireless has been conducted experimentally for the transmission of underground radio penetration of the earth by the waves, and designing a set which will be powerful enough to receive the feeble signals after penetration.

CANADIAN MINISTER TO FRANCE

Wireless Has Not Yet Been Adapted
to Radio Broadcasts

A place in radio hall of fame and probably a fortune await the man who will design wireless apparatus that can be used successfully in broadcasts.

While the use of radio on land, at sea, and in the clouds has advanced with amazing rapidity, its engineers who have spent years in trying to devise a practical means of communicating with entombed miners.

Experts have been conducting experiments for the transmission of wireless messages in the language in which they are spoken.

The Bureau temporary has abandoned its efforts to develop radio for this work, as it is concentrating on the improvement of the telephone and telegraph, and geophones as offering greater immediate usefulness.

Many are the statistics to the feasibility of underground radio penetration of the earth by the waves, and designing a set which will be powerful enough to receive the feeble signals after penetration.

Wireless signals have been placed at intervals of 10 miles in the eastern part of the country, if not in the dictionary—but it is not in the dictionary—“Specie” is a forced and artificial style rapidly fading.

Noted British Statesman

Mr. W. M. Acheson is Native Of Whiting, Ont.

The son of half of Mr. Acheson is Canadian. His father, Mr. Baldwin, entered the Canadian Parliament in 1921, and his son, Mr. Acheson, is a member of the Canadian House of Commons.

He is the son of Mr. Baldwin, who is a whole-hearted protectionist. It is a well-known fact that he has been closely tied to him since 1923. Mr. Baldwin appointed him to the country for a mandate to introduce protection—

which was emphatically rejected.

Mr. Baldwin was born in Whiting, Ont., and his father, Mr. Baldwin, was a

When Food Sours

A few red foods are serving many people trouble from their stomachs. They call it indigestion. It means that the stomach nerves have been over-stimulated. There is excess acid. The way to control it is with a medicine which neutralizes many times its volume.

The right way is Phillips' Milk of Magnesia—just a teaspoonful of water, it is pleasant, efficient, and

serious. It has remained the standard with physicians in the West since its invention.

It is a quiet method. It is the approved method. You will never use another.

All in our town talking ceased

and drew all eyes to military attention.

For before them stood the Red Shadow!

Every man of his first straight figure proclaimed his fighter. He was a loose, bright scarlet burnoose, the hood of which was drawn by white bands around his head by white bands.

He was shot in gleaming black military boots and his sword was strapped to his belt. He was looking beneath the folds of his cloak. His chin suggested that his face was as handsome as his physique, but he was a good man, had helped to save the cheeks and eyes were concealed behind a scarlet mask. This, which was also white, had helped to save his life.

He was a good man,

for even his closest shadow had never seen him without.

Shocked a woman said,

"What is he?"

Shocked followed by awe.

As they reached the ridge

where they had their secret encampment, the Red Shadow stopped, climbed to an opening in the rocks that formed a narrow cave. Here they disseminated. Some vanishing droves, others remained.

Surely singing the ringing bars of their tribal song, the song of the Hiffs, those desert outlaws who were the domination of the other French.

For across the desert these riders

were as silent as the night.

Twilight gradually wrapped its cloak about them. A few hours before a pale moon would have dispelled the cloudless night sky but as night descended this assumed a golden red and did not seem to reach when it met the circle, all the glow and color of the desert landscape that was now clothed in a nocturnal mantle.

Out of the sand stars began to show their glinting lights. A soft cool breeze slowly blew in from the south driving the sand dunes that stretched to horizon. The majestic silence was so intense as to be reverent.

One could be sworn that not one human being dwelt within ten leagues of the spot. Then all at once out there in the infinity of desert space came the sound of voices.

For a moment nothing was seen but as the stirring grew into a definite line of figures, the light of the orange moon there appeared a tiny spark where sand and sky on the distant horizon met.

Over the crest of another sand dune another spark appeared, followed by count less others. But now the leader was distinguishable as a rider on a steed of fiery hue. The red ribbon of other desert cavalrymen clad in turbans and howling robes that were held high in their right arms to proclaim their warlike spirit.

The wealth of faltering hoofbeats

and grantees of sand in a dusty trail behind them was at first only sound to break the stillness. But as the last spark came into view the echo of the distant steps the voices of a hundred men filled the

air.

"Our Red Shadow is a match for a thousand of us," said the Red Shadow.

There were few faint hearts

but he had confidence

in their prowess as fighters and

as leaders.

And the Red Shadow was a

strange and bold leader.

He was a stranger out of nowhere.

He had come to champion

those who against the tyranny

of the French.

He had been subduing

the despotic attitude of the French

general.

He had succeeded in

protecting their independence.

Now led by Captain Fontaine's

Red Shadow,

he had enlisted in the army

of the French.

He had enlisted in the army

of the French.

He had enlisted in the army

of the French.

THE GLEICHEN CALL

der the strain of heavy egg production. The hen does not only supply calcium to the minerals but ensures full mineral nutrition to the other foods in the meal which contain protein, starch, vitamins, etc. The result of the shell and summer diet of the hen in winter and summer during the molting season.

**ECHOES OF GLEICHEN
TWENTY YEARS AGO**

Taken from the Call in 1909

The mosquitoes are showing up and are a beautiful crop.

Mr. Sheets returned on Saturday from a trip to New York and other eastern cities, where he went last summer.

Wm. Hill brought in 500 head of young cattle last fall from Moosejaw, Sask., and drove them to his ranch in the hills.

Henry Brown & Far shipped in from Manitoba last week 1,000 head of young stock, and they have been driven out to the Two Har Ranch.

The post office has been opened south of town to be known as Arrowwood Creek post office, and the name Gleichen is used.

The new horse and buggy was driven out to the good old days.

Master Kenneth McPherson rode in yesterday morning on his bicycle, wearing his hat Jackson on the field, and his mount well, although Walter James also done very well and deserves encouragement.

Farquharson was soon in attendance who announced that the injuries were not serious, though his arm was badly bruised, from which he suffered considerable pain. He was unable to leave the town all day. Another horse continued the race with Cherry until the heat in winter and summer during the molting season.

It was decided to make for the home-stretch when he left the track and Laura Brant was the only horse to dash the race and was declared the winner.

The Empire Day races and sports proved a decided success and everyone went home well pleased with the day's entertainment. In the last moment it appeared Phoenix was determined to spoil everything.

It is pleasing to note that the Association will total up a profit of over \$175 to the good as a result of the gate receipts, grandstand fees, etc., which entitles them to continue their services next year.

The only incident of the day was in the first race, when Walter James was thrown off "Sikama" by the horse stamping in a small hole and turning over a couple of hundred yards from the finish. Neither horse or rider sprained any of the bone for the tail was cut.

Master Kenneth McPherson rode in yesterday morning on his bicycle, wearing his hat Jackson on the field, and his mount well, although Walter James also done very well and deserves encouragement.

Come in and take out a Ford car for demonstration—drive it yourself.

Hon. Robert Forke Expresses His Views On Immigration Question

Ottawa.—The national development immigration scheme propounded by General A. D. McRae (Conservative), Vancouver, is a good one, but it is not safe to assume that it should be entirely accepted, declared Hon. Robert Forke, minister of immigration, in the House of Commons, when he spoke to the government to the Vancouver member's want of confidence motion, which calls for the immediate resumption of the department of immigration and colonization, moved in the House.

Forke said as he himself was elected he had given his opinion to the practicability of the McRae scheme, said Mr. Forke.

At least, Mr. Forke said, the member for North Vancouver had had something to offer on the subject of immigration, and his suggestion was not to be despised.

Mr. Forke did not believe it though, and any discussion of the expenditure of many millions of dollars would be successful.

He did not say that it set a certain limit, but too heavy a financial load, had nearly the same chance for success as one who had no plan.

He is, however, in respect to Canada's right to control the importation of persons, which could be absorbed in the industries of the nation at their rate of natural expansion.

In order to overcome the fear that Canada was becoming overfull with a foreign population, Mr. Forke said, it was necessary to increase the Canadian population was Canadian born, 12 per cent, British born, and only ten per cent was of foreign birth.

He would answer the allegation that thousands of immigrants left Canada for the United States in times past by showing he said the comparison between that of 1924. In 1924, 118,000 emigrated from Canada to the United States, while 150,000 left for the United States. Even if the Washington figures were correct, he doubted its correctness, the number of persons leaving Canada for the United States, had been decreased very materially.

Power Permit Given To British Company

For Development Of White Muds Falls In Manitoba

Ottawa.—The Dominion government has granted a permit to a company of the British White Mud Falls in northern Manitoba, to the British Dominions Power Company (Canada) Ltd., to work the oil fields at the office of the minister of the interior.

It is understood that the permit is to continue in force for one year and if at the end of that time the company is prepared to proceed with development, a lease will be issued.

The permit was granted following an application from the British Columbia legislature. A resolution, moved by Premier John Bracken, requested that a priority permit be granted the British company.

Postmen In Civil Service

Ottawa.—The government of the Civil Service Federation, has announced that the Federated Association of Letter Carriers has affiliated with the organization. The Letter Carrier's Association has been in existence for some 33 years. They withdrew from the Civil Service Federation seven years ago.

Child Killed At Street

Edmonton.—June 20.—Three-year-old daughter of Lieut. L. B. and Mrs. E. C. H. Williams, was killed when a street car run over her body. The child had run under the car as it was standing and was killed when it moved forward.

Workman Killed At Victoria

Victoria, B.C.—A 16-year-old boy, recently killed when he fell from the fifth floor of the new addition to the Empress Hotel, a distance of 100 feet. He was an employee of the Dominion Bridge Com-

Clergy and Tobacco

Heated Discussion Takes Place At Meeting In Toronto

Toronto.—Stormy scenes developed at a meeting of the Toronto Methodist Church over the adoption of a report by the committee which calls for the immediate resumption of the department of immigration and colonization, moved in the House.

Forke said as he himself was elected he had given his opinion to the practicability of the McRae scheme, said Mr. Forke.

At least, Mr. Forke said, the member for North Vancouver had had something to offer on the subject of immigration, and his suggestion was not to be despised.

Mr. Forke did not believe it though, and any discussion of the expenditure of many millions of dollars would be successful.

He did not say that it set a certain limit, but too heavy a financial load, had nearly the same chance for success as one who had no plan.

A Day Of Thanksgiving

June 16 Is Officially Announced As Date of Thanksgiving For Reigning King

London, England.—It is understood that the date of June 16, has been selected for the day of thanksgiving for the recovery from the grave of King George V will be announced as a day of thanksgiving for his recovery from the grave.

The programme, as officially forecast, contemplates a special service at Westminster Abbey, followed by a service at the Royal Chapel and members of the royal family, to which the public will be admitted.

It is reported that King George V, on his return from Croydon, has a special audience with his son, King Edward VIII, and his wife, Queen Mary, at the Royal Lodge, Sandringham.

King Edward VIII, who is recovering a section of the trip which read:

"That the Christian character of our country demands that we should not use tobacco in any amount."

DELEGATE TO INTERNATIONAL SUFFRAGE ALLIANCE

Joint Radio Control

Plan 1. Endorsed By The Royal Society Of England

Ottawa—Joint control of radio broadcasting by the federal and provincial governments with equal preference given to educational programs, public information and entertainment, was recommended as the best policy by the Dominion branch of the Royal Society of Canada.

Another feature of the day's proceedings was the defeat of a recommendation submitted by a sub-committee which would have limited the printing of scientific papers in Britain.

The decision concerning radio control, made in response to a request by the Royal Society of England, was rescinded by the society's executive committee.

Mr. J. M. Tory, head of the Royal Society of Canada, was present.

Mr. C. M. Royce, rector of Laval University, delivered his presidential address in which he cited the society's third reading of the racing and in-tellectuals from coast to coast.

Following his address, Mr. Royce presented the Sir Joseph Flavelle medal for outstanding work in science to A. H. Macmillan, and announced that the J. T. Blyth medal for outstanding work in the field of agriculture had been awarded to Prof. George M. Wrong, University of Toronto. Mr. Royce also made the recipient of the Dr. Ernest Laprade medal in pure literature, especially French-Canadian literature.

Ottawa—Joint control of radio broadcasting by the federal and provincial governments with equal preference given to educational programs, public information and entertainment, was recommended as the best policy by the Royal Society of Canada.

Another feature of the day's proceedings was the defeat of a recommendation submitted by a sub-committee which would have limited the printing of scientific papers in Britain.

The decision concerning radio control, made in response to a request by the Royal Society of England, was rescinded largely as the result of a report by Dr. H. M. Tory, head of the Royal Society of Canada.

Mr. C. M. Royce, rector of Laval University, delivered his presidential address in which he cited the society's third reading of the racing and in-tellectuals from coast to coast.

Following his address, Mr. Royce presented the Sir Joseph Flavelle medal for outstanding work in science to A. H. Macmillan, and announced that the J. T. Blyth medal for outstanding work in the field of agriculture had been awarded to Prof. George M. Wrong, University of Toronto. Mr. Royce also made the recipient of the Dr. Ernest Laprade medal in pure literature, especially French-Canadian literature.

The question of whether the testing laboratory be under the supervision of the National Research Council instead of the grain board, was referred to the commission by the government, who will be accompanied by two university students, a college student and a woman who will be engaged in research work in the field of agriculture.

States that a definite proposal will be made to the government by the commission, who will be accompanied by two university students, a college student and a woman who will be engaged in research work in the field of agriculture.
